

CSIR-CSMCRI

ITSON

MEMORANDUM OF UNDERSTANDING

BETWEEN

COUNCIL OF SCIENTIFIC AND INDUSTRIAL RESEARCH (CSIR), INDIA THROUGH CSIR-CENTRAL SALT AND MARINE CHEMICALS RESEARCH INSTITUTE (CSIR-CSMCRI)

AND

INSTITUTO TECNOLÓGICO DE SONORA (ITSON), MÉXICO

CONCERNING

INTERNATIONAL COLLABORATION ON RESEARCH, ACADEMIC AND EDUCATIONAL EXCHANGE

This Memorandum of Understanding is entered between "Council of Scientific and Industrial Research (CSIR)" a society registered under the Societies Registration ACT XXI of 1860, having registered office at 2 Rafi Marg, New Delhi-110001, India through CSIR-Central Salt and Marine Chemicals Research Institute, which is one of its constituent units, having its office at G.B. Marg, Bhavnagar, Gujarat-364002, India, represented by Dr Amitava Das in his capacity as its Director, hereinafter referred to as the "CSIR-CSMCRI",

AND

Instituto Tecnológico de Sonora, located at street 5 de Febrero N° 818 Sur, Ciudad Obregon, Sonora, México, represented by Dr Javier José Vales García in his capacity as the Rector of the university, same that has all the legal faculties to celebrate this MoU, as appears in the Power of Attorney, expressed in Public Deed N° 5,997, volume 80, dated April 05, 2016, in the presence of the Notary Lic. Horacio Alberto Olea Rodríguez, N° 31, in Ciudad Obregón, municipality of Cajeme, Sonora, México, hereinafter referred to as "ITSON".

(Hereinafter collectively referred to as Parties),

With the objective to promote and develop possibilities of scientific and technological cooperation between scientists of the Parties, have reached the following understanding:

FIRST. This MoU aims to establish the basis for mutual cooperation in the development of projects that include the below mentioned activities:

1. Performing actions to develop joint projects in teaching and research; organizing meetings and seminars as well as any other program of interest to both institutions.

CNSJ
REVISADO

2. Promoting exchange of students, researchers and personnel as well as the exchange of experiences in the fields of teaching, research and culture within the areas determined by mutual agreement.
3. Encouraging reciprocal exchange on topics such as research, postgraduate courses, doctoral courses, books, publications and other teaching materials.
4. Formulation and implementation of joint research programmes including in the areas of Energy efficient photovoltaic (PV) powered reverse osmosis (RO) desalination system.

SECOND. All cooperative activity shall be stated in specific agreements, clarifying terms, conditions and implementation procedures; appointing a representative from each institution, whom would be responsible for following up on the agreement.

THIRD. In the event that the specific agreement implies financial obligations for either party, it shall be expressed in it.

FOURTH. This MoU does not imply legal or financial commitment between the parties-signatories to them.

FIFTH. The consensus of this MoU is a declaration of intents aimed at promoting authentic relations of mutual benefit in the field of academic cooperation. Nothing herein agreed in any way shall affect the full right of ITSON to establish similar links with other universities. And also, shall not hinder the CSIR-CSMCR I to establish similar links with other universities, in addition to ITSON.

SIXTH. This MoU will last 3 years from the date of its signature and may be renewed by expressed agreement of both parties. Where there is will to termination by either party, it shall be communicated to the other party six months in advance. Giving the case, the parties undertake thereafter to conclude the actions that had already begun. The Parties agree that the signing of this MoU does not create any legally binding obligations between the Parties.

IN WITNESS WHEREOF, the undersigned being duly authorized thereto by their respective institutions, have signed this MoU in two (2) originals in English.
